

ATTENTION PARENTS:

Keep Your Kids Safe

ZERO Fatalities
A Goal We Can All Live With
a utah.gov initiative

Don't let your child drive an off-highway vehicle illegally.

Allowing your child to drive an OHV illegally puts them at risk for legal trouble and puts them in danger. Children under the age of 18 are 13 times more likely to have a crash when operating an OHV.

Children are generally not allowed to drive an OHV on public roads due to safety concerns. Here's why:

- **Safety Risks:** OHVs are risky for on-road driving due to their low stability and lack of safety features like airbags.
- **Inexperience:** Children are not licensed drivers and do not have enough experience or maturity for driving in traffic. Roads need different skills than off-road areas.
- **Traffic Rules:** Children might not know or obey traffic rules well, making crashes more likely.
- **Visibility:** OHVs are smaller and less visible than regular vehicles, making them more prone to crashes on busy roads where other drivers may not notice them.

All OHV operators, including youth, are required to complete an OHV education course. Visit <https://recreation.utah.gov/off-highway-vehicles/education/> to learn more.

If you don't follow the rules, you may be fined up to \$750 and/or required to do 5 hours of community service.

Do Your Part to Keep Our Community Safe!

Let's work together to ensure the safety of our kids and community. Responsible parenting makes a safer neighborhood for everyone.

- Golf carts are NOT OHV approved and are illegal on any city street not specifically approved for golf cart use by Nephi City (Utah State Code 41-6a-1510). To see Nephi City designated streets where golf carts are allowed and specific golf cart laws for Nephi City, scan the QR code below.
- ADA devices are illegal on any city street.
- All operators and passengers of an ATV, motorcycle, or snowmobile, who are under the age of 18 shall correctly wear a Department of Transportation-certified helmet.
- Only one person per seat is allowed, as per the manufacturer's design.
